Letter of recommendation

Mr. Hugo Huber, Birseck-Treuhand, used to work for our entity, Autodesk AG, in Pratteln / Switzerland from October 1992 to March 1993 as temporary head of our Finance and Administration department.

He was in charge of the accounting and closing of our books as well as reporting to our headquarters in the United States. Furthermore, he was responsible for the payroll work in our entity which counts 18 employees. He also helped us to evaluate a new manager for our F&A department.

We thank Mr. Hugo Huber for his excellent work and his helpful support while our position as head of the F&A department was vacant. Mr. Hugo Huber is still working for us as an external consultant to our Accounting department in Switzerland.
